## 12. The city of Valencia

In terms of population, Valencia is the third city in Spain (after Madrid and Barcelona). Located in the middle of the East coast of Spain, it offers a great combination of modernity and tradition, culture and leisure, day- time and night-time entertainment, city and nature.

When asked about their favourite things about Valencia, our international students often highlight:

- **Weather:** Valencia benefits from pleasant temperatures during most of the year. According to the Valencian Tourism Office, the city enjoys over 300 sunny days over the year!
- **Perfect size:** Valencia offers a great variety of activities, in line with other major cities (an ample offer of theatre, music events, exhibitions, sport centres, parks, multiplex and independent cinemas, an open-air zoo, commercial areas, trendy neighbourhoods...) but it is not too big, so distances are manageable by foot or public transport, and prices are affordable.
- **Beach in the city:** you don't know what it's like until you have it. With mild temperatures around the year, the beach offers varied ways of enjoying leisure time: relax, play, practice sports, or meet with friends.
- **Location and the transport network** allow short trips to many other attractive places in Spain (including Madrid, Barcelona, Granada, or Ibiza). The Valencian Region itself boasts, both in land and on the coast, many interesting towns and beautiful natural spots that you should not miss.
- **Festivals.** In Valencia there is always an excuse to celebrate with a good display of fireworks, but the Fallas festivals are much more than that. Art, culture, tradition, religion, gastronomy and night street parties mix on 5 days in March full of colour, music and fire.
- **Gastronomy:** beyond its international dish "paella" there is a rich Mediterranean gastronomy that you can taste just by visiting your local market.
